PEARL PROFESSIONAL DRUMS & ACCESSORIES

CATALOG Vol.1

INTRODUCTION

THE PEARL DRUMS ARE CREATED WITH EXACTING CARE BY PEOPLE WITH EXPERIENCE, IMAGINATION AND CRAFTSMANSHIP, IN COMBINATION WITH THE FINEST MATERIALS AND UP-TO-DATE FACILITIES. AS A RESULT, SOUND-DEVELOPMENT OF THE PEARL DRUMS HAS SEEN FURTHER ADVANCED, ESPECIALLY IN THE PAST YEAR. PEARL'S SOUND-RESEARCH HAS COME UP WITH MUCH NEW KNOWLEDGE, AND MANY OF ITS CONCLUSIONS HAVE BEEN INCORPORATED IN THE PRODUCTION PROCESS.

PEARL DRUMMERS

COZY COLE Prefers Pearl ... Today's Sound

ED SHAUGHNESSY with the Tonight Show

RALPH HUNPHREY - The Don Ellis Sound is Pearl

THE KNOWLEDGE OF THE PEARL ENGINEERING STAFFS HAS ENABLED THE DEVELOPMENT OF UNIQUE FIBERGLASS DRUM SHELLS, WHICH, AFTER A CAREFUL SERIES OF TESTS, EXTENSIVE STUDY AS WELL AS SOUND RESEARCH, ARE ACHIEVED THROUGH CONFIDENT CRAFTSMANSHIP IN MANUFACTURE.

FIBERGLASS DRUM SHELLS

The Pearl fiberglass drum shell is a nonporous, no aging, yet the strongest material impervious to moisture, and any normal abrasive action. It produces the most sensitive and brilliant sound with the perfect tonal response on all dynamics. It is engineered for today's sound, today's projection.

WOOD-FIBERGLASS DRUM SHELLS

The shell is a special design developed by Pearl craftsman of the advanced processing techniques that enabled the woodshell laminated with fiberglass which permits greater internal vibratory response, thus providing one of the most sensitive and brilliant sounding instrument made today, and compared to the fiberglass drum shell, it is more economical type of drum shell. Its excellent tone quality of the dynamic power provides today's modern drummers with deep satisfaction.

1. Snare Strainer
Highly functional snare strainer operated by a single control lever. Perfectly balanced, effective snare action is obtained without muting the snare head.

2. Tom-Tom Holder
Adjustable in height and to any angles, and positive locking system with simple adjustment.

3. Cymbal Tilter
Complete angle adjustment is possible; simple, effective and most practical tilter.

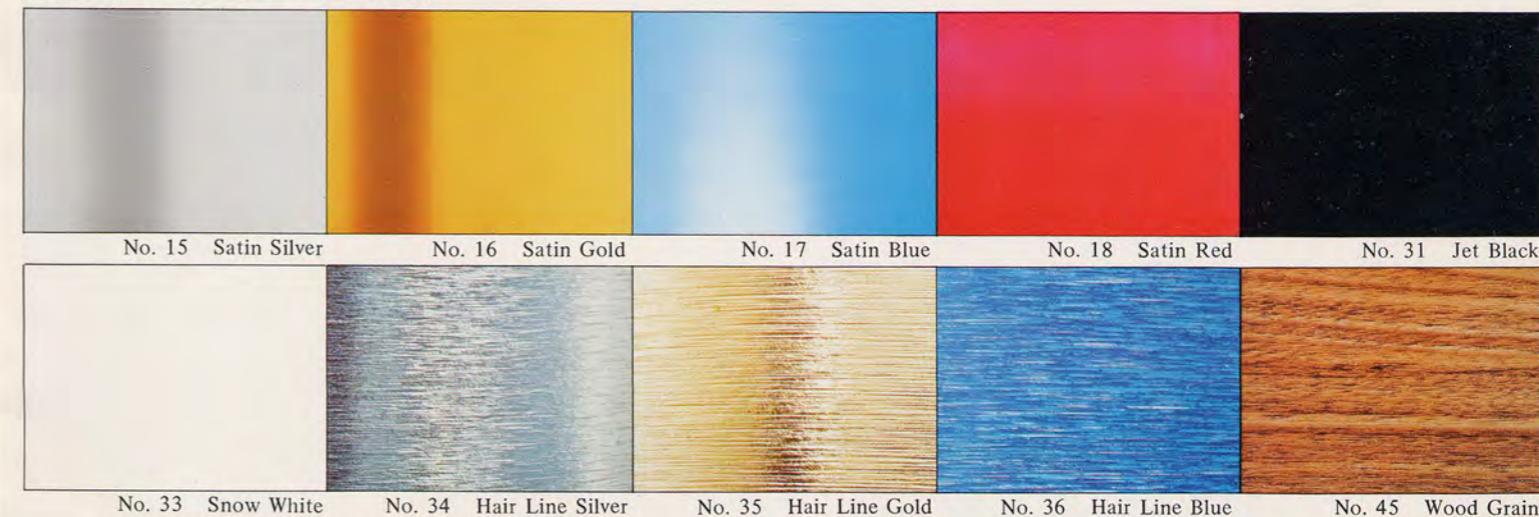

4. Bass Drum Spurs
The easy push-pull release provides for a quick detachment of spurs. It assures a rigid control against bass drum movement.

5. Bass Drum Hoops
Pearl inlaid, sturdy construction, and durable chrome-plated metal hoop with perfect, even tension.
