“You should be in love with your drums. If you are not, you have some questions to ask yourself. For me, I want to feel like a kid on Christmas morning when I sit down to play. My Masterworks drums give me that feeling, every time. I could play any drums I choose, and I have a collection, but when it comes down to business in the studio or on the road - I choose Pearl.”

MASTERWORKS

*Completely Custom.
Totally Handmade.*

DRUMMING WITHOUT LIMITS

The first to offer sound sculpting, boutique level drum customization to the pro drummer on a grander scale, Masterworks gives you the freedom to design a drum kit worthy of your drive for excellence.

THE MASTERWORKS DIFFERENCE

Selecting the right combination of our finest hand selected shell veneers with the precision engineering of our premium hardware appointments, Masterworks gives you the freedom to customize a sound that is completely your own.

Customize your own signature sound with shell plies from four premium wood types. Combining wood types blends each material's sonic character.

SHELL MATERIALS

- MAPLE**
The perfect blend of tone, attack, and body.
Equal tonal amounts of highs, mids, and lows.
- BIRCH**
"Built-in EQ" delivers articulate stroke with shorter, even decay.
Boosted highs and mellow mid-level tone.
- AFRICAN MAHOGANY**
The perfect blend of tone, attack, and body.
Equal tonal amounts of highs, mids, and lows.
- GUMWOOD**
Explosive projection and increased volume.
Equal tonal amounts of highs, mids, and lows.
- CUSTOM INTERIOR**
The Ultimate Hybrid.
Expand the tonal spectrum by configuring any of Pearl's exotic exterior hardwoods, or a thin layer of hand applied carbon fiber or fiberglass to the shell interior.

SHELL SIZE AND THICKNESS

Virtually every standard shell diameter is available in customizable depths, with a choice of shell thicknesses for precise tonal character, sustain, and projection.

- THIN (4-ply, 5mm w/ 4-ply Reinforcement Rings)**
Increased sustain and low-end.
- MEDIUM (6-ply, 7.5mm)**
Full-bodied tonal projection ideal for general purpose.
- THICK (8-ply, 10mm and 10-ply, 12.5mm)**
Maximum projection and quick decay.

FINISHES

Like commissioning fine artwork, the Masterworks Custom Shop is ready to follow your lead in hand finishing your perfect visual statement.

- LUXURY** - Includes a choice of High Gloss, Satin Stain, and Sparkle Lacquer
- CUSTOM** - Includes Pinstriping, Banding, Artisan II Custom Graphics
- ARTISAN** - Includes a choice of transparent finishes over exotic veneers (*shown below*)

- CAMEROON BLACK LIMBA**
- FLAME MAPLE**
- AFRICAN ZEBRA WOOD**
- TAMO ASH**
- WATERFALL BUBINGA**
- EUCALYPTUS**
- CARBONPLY**

BEARING EDGE

Masterworks offers a choice of five sonically tested edges - configurable by drum, application, and shell side.

- STANDARD 45°**
Provides the perfect blend of attack and warmth.
- OUTER 60°** Pulls brighter overtones and increases punch.
- INNER 45°** Edge apex focused to inner shell plies for controlled sustain.
- ROUNDED 45°** Increased head-to-shell contact boosts mids and highs.
- FULLY ROUNDED**
Boosts mid-to-low range response and reduces decay.

HARDWARE FINISH, LUG, AND HOOP OPTIONS

Choose from five gorgeous plating options on your selection of our precision tuning lugs, hoops, and drum hardware.

Sonic-Select Shell Recipe: URBAN

THE FULL SPECTRUM OF MASTERWORKS CHOICE IN SHARP FOCUS

Five distinct drum recipes; each one a combination of sonically proven shell woods, edge profiles, and precision hardware options. Crafted to create a truly unique tonal signature.

URBAN (pgs. 6 - 7)

A thin, powerful shell blend for the precise metropolitan drummer.

STADIUM

(pg. 8) Pearl's thick CZX Maple shell for high-volume power.

STUDIO (pg. 10)

Explosive tonal clarity and articulation for recording.

HERITAGE

(pg. 9) Classic drum feel with enhanced lows and fat top-end slap.

MODERN DRY

(pg. 11) Quick, top-heavy articulation with controlled low-end.

URBAN

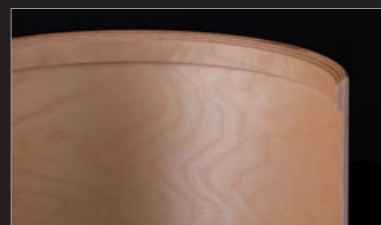

Urgent, powerful, and defiant, the *Urban Recipe* projects loudly on the top-end and fills the bass frequencies with thunderous, shaking lows. From the arenas to the modern sanctuary, this is Masterworks for a new breed of top players.

Listen to the Urban recipe played by Brian Frasier Moore at pearldrums.com

SHELL

EvenPly-6; 2-Birch/2-Gumwood/2-Birch with 4-ply Maple Reinforcement Rings (8-ply Snare Drums; 2 Birch / 4 Gumwood / 2 Birch). Perfectly captures each stroke with articulate high-volume punch and quick, even decay.

BEARING EDGE

Rounded 45° on Toms (Fully Rounded edge on bass drums, standard 45° on snare drums). Boosted mid and high-end frequencies in toms, subdued sustain and maximized low-end in the kick.

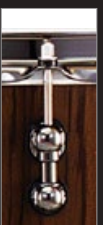

HARDWARE

2.3mm Superhoop II Hoops - Made for heavy play without limiting tuning range performance.

STL SWIVEL LUGS

A medium-weight lug with pivoting tension casing for increased projection and reduced overtone. STL150 / 300

MASTERWORKS

Sonic-Select Shell Recipe:
STADIUM

SHELL

10 ply Maple Bass Drums and Floor Toms, 8 ply Maple Toms and Snare Drums. A thick shell for maximum power and drive.

To explore the all new options for Pearl's ICON Rack systems, see p.64-66.

STADIUM

Sonic-Select Stadium is the total solution for dominating volume and articulate attack. Its high density shell and hardware combination speaks with a commanding presence; projecting with full bodied midrange and focused low end sonic authority.

MASTERWORKS SONIC SELECT STADIUM RECIPE KIT
IN GLOSS A2 CUSTOM GRAPHIC (FEATURING SELECTIONS FROM "CAIN & ABEL: THE OFFERING" BY ILLUSTRATOR JESSICA HANCOCK) OVER NATURAL MAPLE WITH BLACK NICKEL-PLATED HARDWARE.

BEARING EDGE

Outer 60° - Increases brightness and power with controlled overtone.

HARDWARE

2.3mm Superhoop II Hoops - Made to withstand heavy play while allowing the shell to breathe.

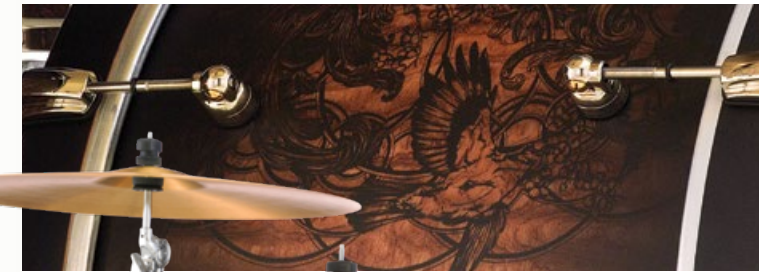

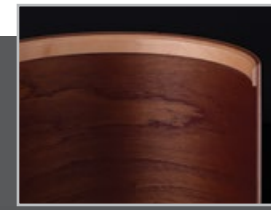

BRL SWIVEL LUGS

Assures the ultimate in head seating and tuning integrity.
BRL100 / 300

SHELL

4 Ply, 2 Ply Maple outside and 2 Ply Mahogany inside with 4-ply Maple Reinforcement Rings - A traditional blend of midrange punch and boosted low-end.

HERITAGE

A2 CUSTOM FINISH GRAPHICS

Turning the drum shell into a blank canvas, Pearl employs an industry exclusive method to print a choice of high definition graphics directly onto the outer shell ply without affecting the tone or structure of the drum. Consult your authorized Pearl Dealer for more information.

HERITAGE

The Heritage Recipe's robust organic presence responds like the growl of a classic roadster. Its thin, reinforced shell produces thunderous sub-bass frequencies with exceptional sustain and subtle projection.

MASTERWORKS SONIC SELECT HERITAGE RECIPE KIT
MATTE A2 NATURALBURST GRAPHIC (FEATURING SELECTIONS FROM "CAIN & ABEL: THE OFFERING" BY ILLUSTRATOR JESSICA HANCOCK) OVER ARTISAN WATERFALL BUBINGA VENEER WITH NICKEL-PLATED HARDWARE.

BEARING EDGE

Standard 45° - A precise low-contact edge that adds projection and resonance to darker toned shells.

HARDWARE

FatTone Hoops - Extends sustain similar to the vintage "stick-chopper" with a light, rigid design that increases tuning stability.

SINGLE STL SWIVEL LUGS

A small pivoting brass tension casing efficiently evens tuning and reduces shell resistance.
STL100 / 200

MASTERWORKS

Sonic-Select Shell Recipe:
STUDIO

STUDIO *Masterworks*

A consistent, commanding sonic foundation for any genre in the recording environment, Studio Recipe's hardware/shell combination gives it explosive projection in the midrange, for clean tonality with extended low-end punch.

SHELL

EvenPly-6, 4-ply Maple outer with 2-ply Gumwood inside – A thin, resonant combination of a hard exterior with milder tonewood for explosive low-range warmth.

Listen to the Studio Recipe played by Shannon Forrest of Toto at pearldrums.com

SHELL

2-ply Maple outer / 2-ply Gumwood inner with 4 ply Mahogany Reinforcement Rings. A thin shell with a softer re-ring and tonewood for added bottom-end focus.

REFERENCE SERIES: INDIVIDUALLY ENGINEERED, INCREDIBLE SOUNDING DRUMS.

Pearl changed the drum set forever with the introduction of Reference Series in 2005. Utilizing the nearly limitless selection options from our Masterworks series, the Reference Recipe's individually engineered drum formula creates a completely retooled drum set playing experience of power, tone, and play.

Like individual notes on a piano, each Reference drum is configured for its intended size and sound with a combination of pristine shell woods, precision hardware fittings, and edge profile. The total Reference kit produces a singular, unified sound that perfectly captures every nuance of your unique drumming identity.

THE REFERENCE DIFFERENCE

All drums are not created equal. So why make them all with the same wood type and edge? Reference toms, snares, and bass drums each have a different 'recipe' for their specific application and voice.

REFERENCE SNARE DRUMS

A staggeringly thick 20-ply shell (comprised of six inner Birch plies and 14 outer plies of Maple,) with a 45° bearing edge projects with the volume and articulation you'd expect without losing sensitivity or body.

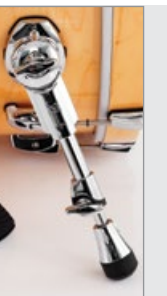

HARDWARE

Engineered to enhance each shell rather than restrain it, Reference BRL Swivel Lugs and Mastercast die-cast hoops increase function and tuning integrity; adding weight to the shell for articulate output boost.

Our telescoping bass drum spurs feature a retractable high-grip rubber tip with a recessed spike for maximum "bite" on carpeted surfaces.

REFERENCE PURE

THE REFERENCE PURE DIFFERENCE

Reference Pure drums present an uninhibited, shell focused tonality for the in demand drummer. Boasting the same shell construction that made Reference drums a professional standard, Reference Pure's ultra thin EvenPly shell reduces shell weight and thickness by 30%; for increased resonance and improved bottom end that responds immediately in any playing environment.

- 1.6mm FatTone Hoops' exclusive hemmed/welded edge (U.S. Pat. #8367917) gives increased strength to low-mass design.
- STL Swivel Tube Lugs allow for increased resonance, minimal shell contact, and precisely aligned, no bind tuning.

SHELL

Using the same shell composition formula as the original (number and type of wood plies, task-specific bearing edges, etc.) the highly resonant qualities of Reference Pure's lower-mass, thinner shell assure an uninhibited shell-focused tonality that responds immediately in any playing environment.

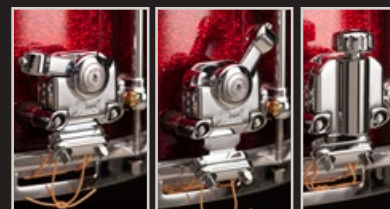

SNARE DRUMS

A thin EvenPly-6 shell with four outer Maple and two inner Birch plies for cut, projection, and smooth, balanced sound. 45° bearing edges provide superbly articulate sensitivity.

SR1000

SR1000 Glide-Lock Strainer's locking throw off lever and tension knob assures slip-free performance. (U.S. Patent #7220905, #7301087, #7365256)

OPTIMOUNT

Aluminum Tom Mounts suspend the drum evenly across four tension points to allow resistance-free resonance in play.

AIR SUSPENSION RUBBER TIP

(U.S. Patent #5881981) isolates the tom from the floor, preventing tonal choke and increasing resonance.

GOLDEN RATIO AIR VENT

(U.S. Patent #7485791) is precision placed on toms to increase low-end response, while low-contact floor tom brackets increase sustain.

SHELL

EvenPly-Six (5.4mm) North American Maple - Fuses reduced thickness, cross laminated ply panels for expanded tonal purity and increased resonance.

BEARING EDGE

Standard 45° - Pearl's original precision edge adds sustain through reduced shell-to-head contact.

HARDWARE

2.3mm Superhoop II Hoops - Made to maintain tuning integrity in heavy play while delivering maximum shell resonance.

CL BRIDGE LUGS

A classic look with minimal shell contact at separate points for precise vibration control.

SESSION STUDIO SELECT

A Completely New Take on the Full Spectrum Sound.

A TRUE PEARL ORIGINAL, WITH A FRESH, GROOVE INSPIRING VIBE.

Taking a tip from the Masterworks spectrum, Session Studio Select's upgraded combination of Masters-grade Birch and African Mahogany deliver a truly refined standout in the drumming world. A sonic dichotomy of smooth low end and piercing projection, its sophisticated look and feel make it the prime choice for the evolving modern drummer.

Pearl's Session sound originated over a quarter century ago in a punchy, vibrant shell hybrid of Birch and Mahogany. Its stunning harmonic variety made it a must for both live and studio drummers.

e/MERGE

Powered by KORG.

INTRODUCING
e/MERGE
Not Just a New Standard.
A new sound. A new feel. And, a completely new e-drumming experience.

e/MERGE is about change, and change in the e-drum market has been way overdue. When we looked closely at every aspect of the current e-drumming experience with KORG, together we knew we could make a dramatic difference. And that difference begins with the all new e/MERGE module. Simple yet elegant in design, the e/MERGE MDL-1 module features a full library of high definition, natural, organic and minimally processed acoustic Pearl drums. We then added the very best electronic, world, orchestral and specialty percussion sounds from KORG's vast library of pristine quality samples. But, the module is only part of the change.

Introducing WAVE TRIGGER TECHNOLOGY
This all new technology partially based upon KORG's now legendary Wave Drum brings a realism, instantaneous response and dynamic range never before imagined possible. The sensitivity provided by WTT is simply amazing. Pearl's all new PUREtouch Pad System completes the experience. PUREtouch has been painstakingly developed to create a true acoustic-like pad experience. No excessive unnatural bounce and no wrist shaking ultra-hard practice pad like feel, PUREtouch provides the sizes and feel every acoustic drummer has come to expect.

MODULE SPECIFICATIONS

SOUND GENERATOR	2 CPU (4 core + 2 core)	DISPLAY	3.25" x 1" Graphic LCD
POLYPHONY	128 Voices	CONNECTORS	Master Out L/Mono & R
VOICE	700 HD Sound Library		Direct Out (8)

SONG RECORDING TYPE	44.1kHz, 16 Bit WAV		Main Trigger inputs (DB-25 Connector)
SONG RECORDING TIME	Approximately 12 Hours		Accessory Inputs (3)
CLICK TEMPO	BPM 30 - 300		USB to PC Port (Transport USB Audio & MIDI Data)
BEAT	1/2 - 24/2, 1/4 - 24/4, 1/8 - 24/8, 1 - 24/8T, 1/16 - 24/16 (T=Triplet)		USB-A (for WAV files and Settings Data)
CLICK VOICES	10	MIDI	MIDI Output
CONTROLLERS	Knobs and Ambient Slider Control	POWER SUPPLY	100-120V, 50-60Hz, Switching Power Supply
		DIMENSIONS, WEIGHT	2.2lbs, 9"W x 7.5"D x 2"H

There are three key elements that separate e/MERGE from anything that has come before. The all new MDL1 e/MERGE Module, KORG's amazing WAVE TRIGGER TECHNOLOGY and Pearl's acoustic-like PUREtouch electronic pads and cymbals combine to create an exceptional e-drumming experience.

e/MERGE MDL1 MODULE

Simple, straight forward yet extremely powerful, the MDL-1 module offers, a pair of powerful multicore processors, a full library of acoustic Pearl drums recorded in one of the world's most renowned studios, pristine samples from KORG's library and the variety of routing options every e-drummer needs.

PUREtouch PADS & CYMBALS

Perfectly sized pads designed to replicate the ultimate acoustic-like response. PUREtouch features layer upon layer of specially designed materials each selected for a specific quality that together create an e-experience never before possible.

Each e/MERGE kit includes a PUREtouch Electronic Cymbal pack consisting of an 18" three zone Ride (bell, bow and edge), 15" two zone Crash (bow and edge), and 14" two zone Hi-hats (bow and edge). PUREtouch Crash and Ride Cymbals feature a multilayer construction encapsulated in rubber with a playing action similar to that of acoustic cymbals, but with a slightly softer feel for controlled sound volume.

WAVE TRIGGER TECHNOLOGY

This ultra-fast and highly sensitive technology partially based upon KORG's groundbreaking Wave Drum allows even your stick choice to make a discernible difference in the sound of your drum.

WTT is fast. As fast as audio. Faster than anything simply trigger based. This speed adds a realism to the playing experience never before available to the e-drummer. WAVE TRIGGER TECHNOLOGY uses parallel processing of your character and your sound and seamlessly layers it with high definition samples of real Pearl acoustic drums to create an end result that is as much a reflection of you as with any acoustic performance. With WTT, sample layers are smoothed, latency is imperceivable, and sensitivity is on a different dimension from anything that has come before.

mimic PRO
POWERED BY SLATE

MIMP24B

THE MOST AMAZING DRUM MODULE THE WORLD HAS EVER KNOWN.

SERIOUSLY, IT'S THAT GOOD.

Superior sound, accurate triggering and connectivity are the most important features of a drum module. Pearl Drums and Steven Slate have joined forces to create "Mimic Pro" - the world's most advanced percussion sound source for studio and live performance applications.

At the heart of this ground breaking unit is the new Steven Slate 5 drum library that features multi-channel drum samples recorded in world class studios. Each instrument supports adjustment of Attack, Sustain, Release, Tune, Pan and volume. Instead of substituting digital effects to create ambience, these instruments use the actual ambient recordings with separate adjustment of close, overhead and room mics.

Mimic Pro is the first drum module to implement a 7" IPS touch screen and the first to offer 2 mixers for independent headphone and front house outputs. Now that the drummer is responsible for triggering loops and other sounds for a performance, Mimic Pro can import audio files to trigger from your pads.

STATE OF THE ART FEATURES:

- 7" IPS Touch Screen with Programmable Data Wheel
- 120 gig solid state drive
- 16 Dual Zone Inputs
- 16 Programmable Audio Outputs
- Midi In and Out
- High Quality Digital to Analog Converters
- Two completely separate mixers for headphone and Main outs. (Drummer gets a personal mix with and without effects independent of Main outputs)
- Import Wave, Aiff or MP3 sound files
- Compatible with most pads on the market
- Steven Slate Drums 5 Library
- 24 bit multi channel sample library with separate adjustment of Close, Overhead and Room mics.
- Onboard effects include EQ, Compression, Reverb with Room Sizes
- Individual Cymbal Volume Adjustments for Bell, Bow, Edge, Chik and Splash
- All AUX and Cymbal inputs have choke function.
- Supports triple and dual zone cymbals and dual zone hi hat.
- SD card slot and USB.
- Additional Instruments and Libraries will be available
- Stereo Aux In and Onboard Metronome
- Internal Recording for Loops and/or Performances

Storage is no longer a problem with Mimic's 120GB Solid State Drive and lightning fast loading time. Speaking of connectivity, Mimic Pro is compatible with Pearl TruTrac pads and a host of pads from other manufacturers. Top

that off with sixteen audio outs, 16 Trigger inputs, independent SD card Slot, USB and Midi In & Out, Stereo Aux input and you would be hard pressed to find a better option for today's musician.

malletSTATION™

malletSTATION

The World's First 3.0 Octave Adjustable Range Electronic Mallet Controller.

PLAY ANY INSTRUMENT THROUGH ANY DEVICE. ANY RANGE, ANYWHERE, ANYTIME.

The World's First 3.0 Octave Adjustable Range Electronic Mallet Controller. Powered By Cutting Edge Technology from Keith McMillen Instruments.

Pearl introduces the ultimate mallet keyboard controller for teachers, players, students, and professionals. Practice, perform, compose anywhere.

EM1

- 43, 1.75" x 5" soft silicone keys • 3 faders and 4 buttons, MIDI assignable • 3 MIDI assignable ¼" pedal inputs
- Bottom Note Range Shift up/down buttons • Octave up/down buttons • 1.6" H x 12.6" W x 49" L • 22.5 lbs

Pearl once again redefines the electronic percussion experience by introducing the revolutionary EM1 malletSTATION adjustable range electronic mallet controller.

The EM1 malletSTATION is a 3.0 octave adjustable range electronic mallet controller designed for all levels of player, from the beginning student through the gigging professional. The adjustable range function allows you to set the fundamental diatonic note of the instrument to what you need—low D xylophone? No problem! Powered exclusively by USB Bus Power, the malletSTATION is designed to be used with

Mac, PC, iPad, iPhone, and Android devices, making it the first truly portable mallet percussion controller on the market.

Designed in collaboration with Keith McMillen Instruments, malletSTATION's tech-forward design features KMI's Smart Fabric Sensor technology allowing the silicone bar material to have an extremely sensitive, natural response, including mallet dampening and aftertouch control, and all can be easily tailored to your individual playing style. The EM1 features a master control section, with 3 programmable faders, 4 programmable buttons, and the fixed function low note

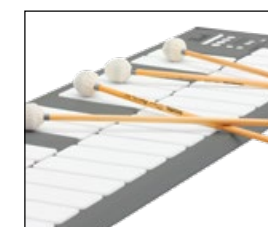

and octave shift buttons. In addition, three assignable pedal inputs allow for flexibility in performance such as sustain, expression, or any MIDI parameter of your choice. These controls are fully programmable through a software editor so changing your configuration is as easy as clicking a mouse.

This is the controller that will grow with you throughout your playing career—from music apps on your phone or tablet, to professional digital audio workstations and sound libraries—your sounds and even the instruments you play are only limited by the software you run.

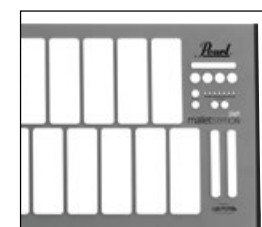

- USB Powered MIDI Mallet Keyboard Controller
- Universal Compatibility through phone/tablet/laptop
- Tech-Forward Design featuring KMI Smart Fabric Sensors
- Low Note, Adjustable, User defined 3.0 Octave Range
- Customizable mallet dampening and aftertouch modes for realistic performance techniques
- Natural feeling soft silicone keys, all-weather playing surface
- Assignable buttons and faders for customized control and functions
- Three assignable pedal inputs for expression and sustain
- Hybrid Aluminum and Steel Chassis design for durability and stability
- Optional MIDI Expander to use external MIDI Hardware (sold separately)
- Flexible mounting on desktop, X-stand, or module mounts (sold separately)
- Mounting plates, stands, cases, covers, and other peripherals (available separately)

FREE FLOATING

The Ultimate Purity of Sound.

Over 30 years ago, Pearl introduced the Free Floating Snare Drum. A milestone achievement in snare drum evolution, this unique system removes all hardware from the shell to greatly improve the drum's resonance and projection. Free Floating snare models are tailored to bring power, clarity, and true articulation to fit nearly any playing environment.

TASK-SPECIFIC INNOVATION Just as each player has an individual voice, snare drums speak differently depending on shell type, size, weight, and application. With the latest Free Floating snare models, Pearl's engineers crafted each to fit a specific task by model. By combining the tonal character of each shell type with its ideally-matched depth - and adding different Ultra-Sound snare wires to further sculpt individual tonal personality - these Task-Specific Free Floating snares give the player a unique voice for any sonic situation.

CLICK-LOCK THROW-OFF SYSTEM Featured on all new Free Floating snare models, the Click Lock Throw-Off is engineered with Polymer bearings for precise and smooth action. The unique nylon grip mechanism locks the snares into place at the top position, and disengages quickly when released.

INTRODUCING VECTORCAST™ A single tiny strand can make all the difference in the world. Beginning with a composite material filament and resin thread, Pearl's new VectorCast shell is formed around a mandrel in an X-pattern; creating a thin, high-strength shell that "flexes" with each strike. Its characteristic sound is both lively and fat, and is a vast departure from other synthetics like Acrylic or Carbon Fiber.

K180 TUNING KEY

SPIN-TIGHT™ TENSION RODS To maintain tuning tension across the batter head, all Hybrid Exotic snare drums feature Pearl's Spin-Tight tension rods. This elegantly simple innovation creates a tension rod-within-a-tension rod, that allows the rod to expand and lock into place within the swivel nut. Utilizing a special drum key, tunings can be controlled under high-impact play like never before. (Patent Pending)

OFF

THROW-OFF SYSTEM: SR150 STRAINER

The secret behind Pearl's patent pending Click-Lock Strainer System is a "C"-shape clip that clicks onto the tension dial. This prevents the lever from disengaging, and the tension dial from loosening, even if the tension is very low. A Polymer bearing on the axle provides smooth and accurate action, and reliably quick response from the lever. (U.S. Patent #9082376)

DIRECT LINK The two positions adjust for a choice of light or heavy feel. This creates the most seamless link between the player's musical ideas and their execution on a bass drum.

DEMON DRIVE BEATER features a Control Core elastomer center that eliminates unwanted vibration. (U.S. Patent #7626108)

CLICK-LOCK prevents the tension knob from loosening no matter how hard you play. Simply flip up for adjustment. (U.S. Patent #7754953)

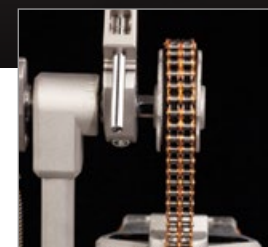

DUO-DECK FOOTBOARD is Pearl's exclusive, world's first convertible footboard and the most unique feature of the Demon Drive pedal. Through a simple adjustment, the footboard can be adjusted from a traditional shortboard to a longboard pedal in seconds, offering a slightly lighter, quicker feel that is the preferred setup when speed is a necessity. (U.S. Patent #7626107)

NINJA BEARINGS were originally designed by skateboarding engineers. These bearings feature micro-polished steel balls for amazing speed and incredible smoothness.

PERFECT CIRCLE CAM "linear response" provides consistent and smooth feel throughout the entire stroke for pinpoint accuracy and superb control. The racing-inspired Cam is designed to minimize mass and maximize speed and power transfer.

POWER CHAIN The Demon Chain Pedal is driven by the ultra-lightweight Power Chain with low-friction rollers for speed, and double chain construction for power and dependability. The orange anodized link plates identify the Demon Chain as a member of the Demon family of pedals.

CHOOSE A CAM, REDLINE YOUR PERFORMANCE

Pearl's original PowerShifter Eliminator was a giant leap ahead in bass drum pedals. The world's only pedal featuring the patented Interchangeable Cam System, Eliminator's virtually unlimited tunability lets the player lock in totally personalized feel, power and speed.

The Eliminator: Redline is the next step forward. Like having four pedals in one, Redline fuses the stunning power and flexibility of the original Eliminator with the fluid speed of our Demon series pedals. With a host of radical improvements, Eliminator: Redline helps unlock perfect feel by locking in a cam, further pushing the boundaries of bass drum performance.

ELIMINATOR REDLINE

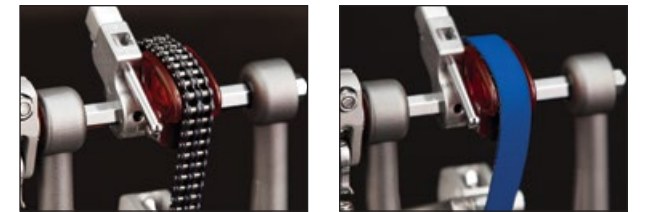

INTERCHANGEABLE CAM SYSTEM U.S.PAT.#6172291

Pearl's exclusive cam system provides a choice of 6 different color-coded cams (4 included and 2 more optional) allowing you to quickly change the power and feel of the pedal to suit your individual playing needs. Changing from cam to cam is as simple as pushing the release button and snapping another in place.

ZERO PLAY HINGE Our proprietary stainless steel hinge provides maximum freedom of motion for blazing speed and prevents play between the footboard and heel. U.S. Patent #7179978

NiNja BEARINGS Developed by skateboarding engineers for the ultimate in fast, quiet performance, NiNja Bearings incorporate state-of-the-art micro-polished steel balls for incredibly fast and smooth performance.

ROLLER HOOP CLAMP w/ Side Mount Adjustment. Quickly adapts to a wide range of hoop thicknesses for the smoothest, most secure grip possible. Easy side access to the hoop clamp makes set up and tear down a breeze. U.S. Patent #5726370

THE CONTROL CORE QUADBEATER
Pearl's improved, reduced profile QuadBeater provides the same four beater surfaces of the original (two hard plastic, two felt). The Control Core elastomer center's added feel and power eliminates vibration. U.S. Patent #5610351 U.S. Patent #7626108

POWERSHIFTER FUNCTION By moving the footboard forward or back, our revolutionary PowerShifter function provides 3 positions to fine tune the power and feel of the pedal. Instantly change the drive angle leverage to create a light, regular, or strong feel. U.S. Patent #5574237

CLICK-LOCK SPRING ADJUSTMENT w/ Rotor Tension Cradle. Locks the desired spring settings into place and prevents tension creep under play. The counter spring adjustment's rolling cradle allows the spring to pivot with each stroke for less resistance. U.S. Patent #7754953

UNI-LOCK BEATER ANGLE CAM Grips the axle a full 360 degrees and allows infinite beater angle adjustments. Features the Floating Spring Pendulum design that is perfectly centered on the clamp for full bearing movement and maximum smoothness.

SUPER SMOOTH, EXTREMELY FAST!

Merging quick rebound response of our flagship Demon Drive with the finely-tuned control of our award-winning Eliminator models, the P930 bass drum pedal offers high-end performance at a player accessible price. Its longboard playing deck delivers a lighter feel for increased speed, and offers advanced performance control and tunability with two rotor cam options. The ultimate pedal for fast feet on a budget.

Comes standard with Perfect Circle and removable Orange Progressive Cams, for fully tunable performance and increased control.

CONTROL CORE DUO BEATER

(U.S. Patent #7626108) utilizes an elastomer center to minimize vibration and features two unique playing surfaces (rounded felt and convex hard plastic surface) for quick-shifting tone and feel.

POWERSHIFTER FUNCTION

(U.S. Patent #5574237) further tunes the power, feel, and leverage of the pedal by shifting the chain angle forward for lighter feel, or back for increased power.

P932 DOUBLE PEDAL COMPLETE
Double the speed, power and control with the P932 Demon Deuce. Give your feet the gift of speed at a fraction of the cost of other "less innovative" pedals.

CLICK-LOCK SPRING TENSION maintains perfect tension gig after gig. Set it and forget it. U.S. Patent #7754953

The P930 pedal is included as an upgrade in the 830 Series hardware pack and comes with Export and Export Lacquer drum sets.

P920/P922 POWERSHIFTER

Fine-Tuned Power and Precision.

THE FAST TRACK TO BASS DRUMMING SPEED AND POWER

Fine-Tuned for a more refined playing experience, the P920 bass drum pedal, featuring the patented Powershifter system (U.S. Patent #5574237), helps you modify your playing approach with an adjustable three position heel plate.

Locking the plate in forward, middle, or aft positions changes the chain drive angle and delivers light, standard, or strong feel with fast, accurate beater action.

Removing resistance from your playing stroke, the Perfect Circle chain-drive cam delivers smooth, gearless action for speed, accuracy, and increased power.

Pedal tension and rebound are easily adjustable with a locking two stage spring system.

The included two-surface DuoBeater helps you modify the tone of the bass drum strike. Selecting the hard plastic surface delivers more tonal attack, while the felt surface offers increased "give" in the stroke with increased low end.

P920
SINGLE PEDAL COMPLETE

P922 DOUBLE BASS DRUM PEDAL

The Powershifter double pedal offers the same individual playing feel from both pedals when attached to a single kick drum. Each pedal is individually adjustable with the adjoining universal joint accurately capturing every stroke with exceptional accuracy. Each two surface DuoBeater is easily switchable and angle adjustable for personalized action and quick response.

FOR EVERY CYMBAL, THERE IS A PLACE.

Nothing takes more abuse than your cymbal stands. Constant practice, tear 'em down throw 'em in the back of your ride, load 'em in at the gig. Abuse 'em a couple of hours on stage then start all over again. Those clamps and tilters take a lot of abuse that's why Pearl is the choice of the serious working drummer. Bobby demands the best, so he designed his Signature Congas and Bongos to exceed all existing standards, right down to the smallest details. For example, the seams are invisible thus giving his Fiberglass congas the look of wood. The beauty of these drums is more than skin deep, the thick fiberglass shells produce a rich tone and projection sure to get you noticed. The congas stand 28" tall to fit the traditional seated player and the wider base adds even more projection and stability. The superior rim design of the polished Contour Crowns on both the congas and bongos adds significant comfort for the player while complimenting the Remo heads. The drums feature a new super high gloss lacquer in #617 Confetti, personally designed by Bobby.

Cuban born Jesus Diaz is one of the most in demand percussionists and vocalists on the scene today. His active schedule provided the feature set for his signature series of congas and bongos. Designed for the seated player the Thai Oak drums measure 30" tall and from the Quinto to Tumba feature added girth to the belly of the drum. Seated conga players typically have to tilt the drum to achieve the desired projection, but the Jesus Diaz drums feature a 4" port on the front of the drum that is strategically positioned to deliver the maximum base frequency while the drum remains flat on the floor. The drums also feature a newly designed Quick Release lug that is slotted to allow removal of the tension rod without fully removing the nut.

Player comfort was also considered in the design of the hoop. A new ergonomically friendly design reduces the impact to your hands while an internal ring centers the head for accurate placement. The drums are finished in a matte lacquer titled Brushed Platinum #580 and feature natural buffalo skin heads.

Tools of the Trade.

ELITE SERIES

Pearl has congas to meet the needs of every player from seasoned professionals to beginners. Our Elite Series offers the highest quality heads with polished Contour Crown rims and a choice of shell materials: 100% Thai Oak, seamless Fiberglass or a blended Oak/Fiber shell that offers the warmth of a wood shell with the added projection of Fiberglass. The Havana Series offers a wide belly design with Fiberglass shells that deliver a rich full tone. Our Primero Pro Series features professional-quality construction at an affordable price and a choice of 100% Thai Oak or Fiberglass. The Primero

line is ideal for students, band programs and beginners and features outstanding Pearl quality along with the same choice of 100% Thai Oak and Fiberglass. The Field Percussion Series features Fiberglass shells and heads that were designed for outdoor use by band programs. From the touring professional to the beginning student, Pearl has a series of congas to meet your needs.

Our bongos offer professional features and authentic styling in a choice of shell materials to perfectly match your conga set.

DJEMBASS - If you want extreme low-end, and a head-turning alternative to a standard bass drum, look no further than to Pearl's Djembass. Convert our most popular PJF350 Fiberglass Djembe into a compact kick drum with the Djembass accessory pack. To reduce the attack and add greater "lows" we have included a cloth cap that stretches around the head. For greater low-end, slip the included neoprene disc inside which give you two sound options. Your pedal (not included) attaches via an I.S.S. type clamp to the Djembe's stand mounting plate.

FOLKLORIC / BRAZILIAN

Traditional Look, Modern Innovation.

FOLKLORIC ELITE CONGAS

Pearl's line of Folkloric congas feature a traditional look with modern innovation that only Pearl can deliver. Each 28" tall Oak conga is designed for the "seated" player, but is predrilled for stand mounts if necessary. Thicker South American style natural skins makes the drums warm sounding, but a fiberglass gel coat on the interior seals the shell and adds the projection and volume desired by today's players. Four Polished Steel Reinforcing Bands are inset on the shell for a smooth touch, and the traditional hoops complete these stunning instruments in a Matte Crimson Sunrise finish. The 7 & 8.5" Oak Bongos have the same hardware and shell features of the congas. The thicker bongo skins add to the projection and "dry" tone reminiscent of that classic Cuban sound.

BATAS Pearl Percussion Bata drums are available in Crimson Sunrise, the same beautiful finish featured on our Folkloric Elite congas and bongos. Additionally, the hardware is finished in Polished Steel and matches the hardware on our other tunable hand drums. These sacred ceremonial instruments have a thicker Enu (large) head for a deep, rich tone.

CONCERT PERCUSSION

Engineered For The Professional Percussionist.

CONCERT PERCUSSION

Pearl is proud to offer Concert Percussion instruments that are attractively priced for school ensembles, yet engineered with the professional percussionist in mind. The symphonic tambourine is a perfect example. Its 17 pairs of specially aged, stamped brass jingles provide a dry, yet bright tone that brings added color to any musical situation.

Its 10" headed wood frame allows the player to effortlessly perform all tambourine techniques, and the tambourine's plush carrying case is included. The rattler is another vital component to any concert percussionists' equipment, and Pearl's is built with an extended handle for a comfortable grip and ease of playing. Holders for the rattler and castanets are also available.

ORCHESTRAL TAMBOURINES

The Pearl Orchestral Series Professional Tambourines provide performers a new voice and sound for any performing situation.

These 5 instruments feature uniquely sourced and hand-hammered jingles combinations of German Silver, Phosphor Bronze, Beryllium Copper, and Yellow Brass that give a full

spectrum of color and projection options to players. The 10" shell is a well-balanced and lightweight 2-ply Mahogany design with contoured hand-hold areas for comfortable performance and warm tone. The natural finish goatskin head provides a full responsive sound and traditional look without sacrificing durability. *Includes bag.*

PERCUSSION STANDS & BRACKETS

The PC3000TW stand holds full size professional congas as securely as most stands double its weight and mass. The PC300W is scaled down to support our lighter Primero Conga lineup. Both stands setup in seconds because there are no wingnuts needed to mount your congas. The PC2500 Ultralite Conga stand, is lightweight yet sturdy and stable. Index markings on all adjustable parts make for consistent lightning fast setups.

TRAP TABLE & RACK

Our popular PTT1824 Trap Table can be easily converted into a two-level folding rack without drilling or modifications by simply adding the PTR1824 Add-On Rack. The PTR1824 installs in seconds using clamps and folds flush with the table for easy pack-up. A unique clamping system allows the included (4) straight and (4) angled 3/8" knurled posts to clamp anywhere onto horizontal or vertical areas of the rack. Also included is a retractable three-legged stabilizer bar for optimum stability. The easy-to-attach PTRUNV Universal Trap Table Rack mounts on virtually any trap table and features six 3/8" rods and receptors for various percussion mounting possibilities.

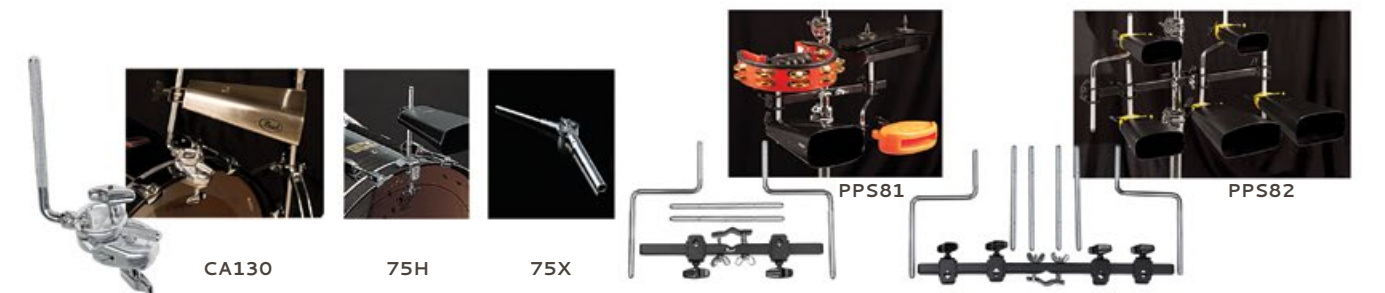

PERCUSSION CASES

Features include: ergonomic carrying straps, rubber protective bottoms, top-mounted carrying handles, tuning wrench pouches, & heavy duty double zippers.
